ENJOY ITS ORGANIC PRODUCTS

BIOFACH
Hall 5 Stand 206
Nuremberg, Germany
19-22 February 2009
Catalonia, with Barcelona as its capital, is a nation in the south of Europe.

In the last few years Catalonia has considerably increased its levels of organic food production. It is currently one of the leading areas in Southern Europe in the processing and trading of organic agro-food products.

The Catalan Government has recently approved a new Plan of Action to spur organic food production and consumption. The sector is expanding year by year, increasing its capacity and potential in the exportation of organic products.

In Catalonia there are currently 1,210 certified organic producers and 19,068 certified organic products. In 2007, the turnover in the organic agro-food sector in Catalonia was over €65.5 million, exporting for a total volume of €14.5 million, mainly to the European markets.

In Biofach’09 Catalonia will have a stand with the participation of the main organic food companies of the country. We look forward to your visit.
CCPAE
The Catalan Council of Organic Agricultural Production is a public law corporation with its own legal status. The organization is governed by the Ministry of Agriculture, Foods and Rural Action of the Catalan Autonomous Government. The CCPAE is the controlling authority in Catalonia, whose purpose is to audit and certify organic agro-food products in our country.

ENAC
The Catalan Council for Ecological Agricultural Production, “Consell Català de la Producció Agrària Ecològica” (CCPAE) achieved compliance with European Accreditation Rule EN-45011 through the Spanish National Accreditation Body ENAC. CCPAE is the first public organization in Europe accredited by Rule EN-45011. This regulation is mandatory for all Private Organizations that certify organic products in Europe.

NOP
CCPAE is also authorized by the government of the United States of America (USA) to certify Catalan Organic Products according to NOP (National Organic Program) Standards. Accordingly, products certified by CCPAE can be exported to the USA as organic. The certification scope covers vegetal products, livestock, handling and processing, and wild harvesting. CCPAE is the first public organization to be accredited by the USDA-NOP in Europe.

CAAQ
CCPAE certification has also been accredited by the Conseil des appellations agroalimentaires du Québec (CAAQ). All organic products certified by CCPAE can be sold in Quebec as such.

Also CCPAE through different agreements offers other certifications

CCPAE has an agreement with Bioinspecta to perform their Catalan on-site inspections.

APECPAE is the Catalan Association of Producers, Manufacturers and Traders of Organic Food. It was established in 2005 and counts with more than 50 leading companies of different organic food subsectors. APECPAE is also the editor of www.eccoalimenta.com, the first daily on-line magazine specialized in organic food and the best commercial platform to introduce your organic food in the Catalan and Spanish market. The website receives up to 100,000 monthly visitors, has up to 6,000 subscribers and more than 300 linked shops. APECPAE is also a member of IFOAM and cofounder of FEPECO, the Spanish federation of organic food entrepreneurial associations.
